教育方法等							
概要	Students will learn practical English communication skills in English IB classroom. They will practice introducing themselves, asking questions, and having small talks with each other. They will practice proper English pronunciation and accents as well.						
授業の進め方・方法	I would like to encourage students to speak up in English without hesitation. I will first focus on improving their English listening and basic pronunciation skills. They will also be practicing conversation patterns along with the textbook. Also, every lesson includes a vocabulary quiz (20pts).						
注意点	For self study; students should get as much practice listening to English as possible. I recommend watching movies and TV, and listening to music in English. Singing songs in English is also a great way to learn. Be sure you understand any new vocabulary words. Practice the conversations by yourself or with classmates.
