Teaching Method									

Teaching Method							
Outline	This course focuses on English conversation practice and confidence building. Students will make the English they have learned from previous classes come alive in its spoken form.						
Style	Each lesson will involve plenty of conversation practice with a different theme and grammar point each week. This course also includes the practice and assessment of pronunciation and intonation. A written test will be given at the end of the semester and speaking tests will be held during class time in the 8th and 15th weeks of the semester.						
Notice	Active participation in English is essential for completing this course successfully. Active learning as an individual and as a member of a group is 20% of the final grade for this course. Students who do not stay focused and those who are more than 10 minutes late for class may be counted absent. Students who miss 1/4 or more of classes will not be eligible for evaluation.
