教育方法等							
概要	Using meaningful and authentic content, students will become active speakers and listeners. They will discover some interesting topics that are essential tools to understand the world we live in. Students will improve their communication skills in English thanks to constant interaction and stimulation and become aware of current and global issues our world is facing. なお授業内容は公知の情報のみに限定されている						
授業の進め方・方法	1. Even if you feel shy, please try and speak as much as possible. 2. You must always bring the textbook and an electronic or paper dictionary. 3. Students cannot use their cellphones in class, unless clearly indicated. 4. Feel free to come to my office to practice English conversation about anything you want.						
注意点	In this class, we will use English as the main language for teaching in learning. Students may feel shy, or discouraged at first but if you hold on and do your best, you will understand that English is not hard, and it is very fun. Depending on the progress of the class, and general level of students, and other circumstances the syllabus may be modified. Also, in case of online classes, students are expected to have the same level of engagement and seriousness as for in-person classes. As students will be continuously working on the the online activities and the essay, there will be no mid-term test. Finally, this class is heavily based on international culture and communication, as such we may make changes to the syllabus to include activities with international students. 本科目は学修単位（1単位）の授業であるため、履修時間は授業時間15時間と授業時間以外の学修（予習・復習、課題・テスト等のための学修）を併せて45時間である。 自学自習の成果は [科目別の評価方法] によって評価する。
