

Tsuyama College		Year	2023	Course Title	情報処理技術 I
Course Information					
Course Code	0066		Course Category	Specialized / Elective	
Class Format	Skill		Credits	School Credit: 2	
Department	Department of Computer and Information Engineering		Student Grade	5th	
Term	Year-round		Classes per Week	2	
Textbook and/or Teaching Materials	None				
Instructor	TAKETANI Hisashi				
Course Objectives					
Learning purposes : By aiming to acquire qualifications, we aim to improve information processing technology and to obtain a greater sense of accomplishment by acquiring qualifications.					
Course Objectives 1 Pass the Basic Information Technology Engineer Examination. 2 Voluntarily work on learning for the qualification exam and pass the qualification exam.					
Rubric					
	Excellent	Good	Acceptable	Not acceptable	
Achievement 1	Be able to pass the Basic Information Technology Engineer Examination at a high level.	Be able to pass the Basic Information Technology Engineer Examination at a middle level.	Be able to pass the Basic Information Technology Engineer Examination	It has not reached the left.	
Achievement 2	It is voluntarily possible to take enough time to study for the qualification exam and pass it.	It is voluntarily possible to work on learning for the qualification test and pass it.	Although the number of hours is short, you can voluntarily work on learning for the qualification test and pass it.	It has not reached the left.	
Assigned Department Objectives					
Teaching Method					
Outline	<p>General or Specialized : Specialized</p> <p>Field of learning : Information and control</p> <p>Foundational academic disciplines : Informatics / Computer Systems / Networks</p> <p>Relationship with Educational Objectives : This course corresponds to the educational goal of the Department of Information Engineering "(2) Acquire knowledge in specialized technical fields related to the fields of information / control and electricity / electronics, and acquire the ability to apply it to fields such as information / communication." Is.</p> <p>Course outline : This subject encourages students to engage in independent learning by setting a specific goal of the Fundamental Information Technology Engineer Examination.</p>				
Style	<p>Course method : First, the outline of the exam and how to proceed with the study will be explained, and then the study will proceed voluntarily under the guidance of the academic advisor.</p> <p>Grade evaluation method : Your academic advisor will give you advice when you take the exam, and if you pass the exam, you will apply for credit approval to the Academic Affairs Committee and evaluate it.</p>				
Notice	<p>Precautions on the enrollment : Submit the application for elective courses by the designated date. In addition, this course is a course for acquiring qualifications, and it is necessary to apply for credits in order to obtain credits. Of the elective courses (excluding voluntary study courses), the number of credits that can be accredited by the Academic Affairs Committee is within 6 credits including off-campus training A or B. In addition, the number of qualifications that can be applied for credit acquisition is limited to one, and the number of credits that can be acquired even if two or more qualifications are acquired is one.</p> <p>Course advice : The content learned in this subject is deeply related to the content of the computer-related subjects taken in the past. Make sure to check what you have already learned as a preparatory study to be conducted in advance.</p> <p>Foundational subjects : All information-related subjects</p> <p>Related subjects : All information-related subjects</p> <p>Attendance advice : Obtaining a qualification exam is the ultimate goal, but self-study throughout the year is also essential for the exam.</p>				
Characteristics of Class / Division in Learning					
<input checked="" type="checkbox"/> Active Learning		<input type="checkbox"/> Aided by ICT		<input checked="" type="checkbox"/> Applicable to Remote Class	
				<input type="checkbox"/> Instructor Professionally Experienced	
Course Plan					
			Theme	Goals	
1st Semester	1st Quarter	1st	<p>Guidance</p> <ul style="list-style-type: none"> Outline of qualification test Explanation of how to learn 	Understand the guidance	
		2nd	<p>Course procedure</p> <ul style="list-style-type: none"> Confirm and submit the application for elective courses 	Perform the course procedure	

[illegible]

		14th	Summary / Credit acquisition application • If you pass the qualification test, the procedure for applying for credits is completed.	Advance and understand learning according to your own purposes
		15th	Preliminary day / document arrangement	Prepare documents for submission
		16th	Preliminary day / document arrangement	Submit the required documents to the instructor

Evaluation Method and Weight (%)

	Examination	Presentation	Mutual Evaluations between students	Behavior	Portfolio	Other	Total
