評価項目1		Students are able to develop critical thinking using authentic materials	Students are somewhat able to develop critical thinking using authentic materials	Students are not able able to develop critical thinking using authentic materials		
評価項目2		Students are able to understand and discuss global and modern topics in English	Students are somewhat able to understand and discuss global and modern topics in English	Students are not able to understand and discuss global and modern topics in English		
評価項目3		Students are able to review and consolidate what the vocabulary and syntax acquired during the previous years	Students are somewhat able to review and consolidate what the vocabulary and syntax acquired during the previous years	Students are not able to review and consolidate what the vocabulary and syntax acquired during the previous years		
学科の到達目標項目との関係						
函館高専教育目標 E						
教育方法等						
概要	As the last English class students will in the regular course in this college, we will try to make good use of all the skills previously acquired during the 5 years here. Rather than teach language, we will focus on global issues that our world is facing right now. Students will be asked to show critical thinking by analyzing situations and offering ideas and solutions. Group work will play an important role in this lesson.					
授業の進め方・方法	1. Even if you feel shy, please try and speak as much as possible, especially when in groups. 2. You must always bring the textbook and an electronic or paper dict 3. Feel free to come to my office to practice English conversation about anything you want 4. Student will have access to e-Learning to prepare for lessons. It can be accessed on PC or smartphones.					
注意点	This class is not difficult but students must respect some basic rules, such as not being late, and always having their textbook and dictionary. I will provide students with various authentic materials, and I strongly encourage students to find new ways of studying English using these advice. JABEE教育到達目標評価： 定期試験80% (E-4) , E-Learning 10% (E-4) , classwork 10% (E-4)
