教育方法等						
概要	In this class, students will acquire skills for writing passages and making presentations in English. It is necessary for the engineers to have skills to write and talk in English not only for obtaining information but also appealing their products and outcomes. In this course, students will learn English writing and presentation skills through practice.					
授業の進め方・方法	A) Writing assignment: 20 points; B) Writing examination: 20 points; C) Presentation: 50 points; D) In-class participation and attitude: 10 points Total point = A+B+C+D Passing criteria: 60% of the total point Final grade: same as the total points No reexamination for failing students					
注意点	Students must submit assignments by each deadline every week. The lecturer uses English in the class. Students are encouraged to use English as much as possible. Active participation is regarded as important in the class.  Learning logical expressions in English leads to improve Japanese expressions. Writing and presentation in English may look difficult, but challenge positively.					
授業計画						
		週	授業内容		週ごとの到達目標
