

八戸工業高等専門学校		開講年度	令和04年度 (2022年度)		授業科目	グローバル実践英語ⅢA(0294)
科目基礎情報						
科目番号	3C42		科目区分	一般 / 必修		
授業形態	講義		単位の種別と単位数	履修単位: 1		
開設学科	産業システム工学科マテリアル・バイオ工学コース		対象学年	3		
開設期	春学期(1st-Q),夏学期(2nd-Q)		週時間数	1st-Q:2 2nd-Q:2		
教科書/教材	In Science Curiosity (Seiko Otsuka et al.,) Kinseido; Basic Understanding of the TOEIC L&R Test (Massaki Ogura): Kinseido					
担当教員	横田 実世,田村 英門					
到達目標						
In this class, students will read simple science related articles in English with a wide range of topics including medicine, chemistry, biology, and physics. They will develop critical thinking skills, with a strong emphasis on sharing and writing opinions in English. Students are required to prepare, study, and participate actively in this class. Please bring an English-Japanese or English-English dictionary to the class. Students will also study basic TOEIC L&R to familiarize themselves with the exam format with the aim of TOEIC scores, 300-350.						
ルーブリック						
	理想的な到達レベルの目安(優)		標準的な到達レベルの目安(良)		未到達レベルの目安(不可)

評価項目2	TOEIC score equivalent to 350 and above		TOEIC score equivalent to 300-350		TOEIC score equivalent to 300 or less	
学科の到達目標項目との関係						
教育方法等						
概要	Students will familiarize themselves with discussing given topics in English. They will comprehend reading materials and be asked to provide their opinions in English. In addition, this course helps students prepare for TOEIC English Placement tests for future work and higher education.					
授業の進め方・方法	The class will be divided into two groups (A and B). A group will use the Science Curiosity (SC) textbook while B group will study TOEIC for three weeks and vice versa, alternately. Lessons will be conducted primarily in English with a focus on the textbooks. Prior to a class, students are responsible for reading and understanding basic English expressions and sentences. During the class, they are required to discuss the topic and share their opinions. In addition, TOEIC exercises and online program will be introduced in this course. The coursework will be graded based on: Exams (midterm and final: 70%)and Homework/mini tests/participation (30%). The attendance will be considered as a part of the grading plan.					
注意点	Before classes: Read textbook out loud until you feel familiar/comfortable with contents. During classes: Active participation is important. After classes: Review what you have learned and explore further.					
授業の属性・履修上の区分						
☒ アクティブラーニング		☐ ICT 利用		☐ 遠隔授業対応		☐ 実務経験のある教員による授業
授業計画						
		週	授業内容		週ごとの到達目標	
前期	1stQ	1週	SC Introduction/SC Unit 1: Why is Air Colder the Higher Up You Go?		Understand topic sentences and paragraph structure・比較級の表現方法の確認	
		2週	SC Unit1 Review & Unit3: Is It OK to Listen to Music While Studying?		Describe your opinion based on the topic, 第五文型 (SVOC)の表現法を身につける
