学科の到達目標項目との関係							
学習・教育到達度目標 DP5 異文化理解と討議・発表力・英語基礎力							
教育方法等							
概要	This course helps students develop the academic skills and language needed for university study and in the work place. Classroom activities provide ample practice on integrated skills that develop academic language, critical thinking and independent learning essential in academic and working contexts.						
授業の進め方・方法	Students are expected to have a positive attitude toward listening to and speaking English and are required to actively engage in classroom activities and to try to communicate using English. This class provides an opportunity for students to interact with a native English teacher and uses authentic academic texts and news articles. While students may find using authentic materials challenging at first, they will learn strategies during the course to help them become accustomed to working with such texts. In addition to studying Academic English, students will further develop their presentation, discussion, and opinion stating skills.						
注意点	Students must bring a dictionary to class. Students are required to study outside of class using various media, such as television, radio, and the Internet, in order to improve their English abilities and deepen their understanding of other cultures.						
授業計画							
		週	授業内容		週ごとの到達目標		
前期	1stQ	1週	Introduction and explanation of course content and class aims		Be aware of course content and aims		
		2週	Unit 1 Choices and implications		Be able to understand how essay types are organized		
		3週	Unit 2 Risks and hazards		Be able to support claims with evidence		
		4週	Unit 3 Language and communication		Be able to refer to and reference other people's work		
		5週	Unit 4 Difference and diversity		Be able to report what they read		
		6週	Unit 5 The world we live in		Be able to include quotations in their writing		
		7週	Unit 6 Behaving the way we do		Be able to write conclusions in essays and reports		
		8週	Unit 7 Bringing about change		Be able to use an academic style		
	2ndQ	9週	Unit 8 Work and equality		Be able to understand the structure and content of reports		
		10週	Unit 9 Controversies		Be able to describe information in figures, tables, and graphs		
		11週	Unit 10 Health		Be able to compare and contrast information		
		12週	Preparation for individual presentations		Be able to give a presentation related to their research interest		
		13週	Presentations		Be able to understand other students' presentations		
		14週	Review and consolidation		Re-enforce what they have learned		
		15週	Exam		Re-enforce what they have learned		
		16週	Review		Feedback
