| The objective of this course is to prepare the students (future engineers and the technicians), to use the type of English used in technical situations. Raising motivation while lowering anxiety are primary considerations for intercultural settings. |                                                                                                                                                                                                                                                                                                                                                              |                                 |                         |                                 |                                   |                                         |  |
