Teaching Method						
Outline	This course is designed to develop the ability and attitude to acquire basic skills, improve physical fitness, and become familiar with physical activities through the practice of physical education while understanding the theory of physical education. In addition, through the study of health science, students will acquire the basic knowledge to lead healthy, safe, and vigorous lives throughout their lives. Overall, students will cultivate sound development of body and mind.					
Style	[The second semester]     The class will mainly consist of practical skills. However, lectures may be given in some cases.     In this course, students will be required to write a report and other assignments as necessary.     If necessary, reports and other assignments may be required.     The syllabus may be changed in a hurry depending on the infection situation in Tochigi prefecture or surrounding areas.     Evaluation will be based on 40% on practical skills (skill test, sportsmanship practice, etc.), 50% on class participation (class attitude, daily participation, etc.), and 10% on other reports and assignments.     (Created on Feb. 1, 2022)
