到達目標							
This course focuses upon improving the student’s ability to engage in conversation and communicate in English, and help the student feel more confident about using the English they already know. The course uses role-plays and various scenarios that simulate a natural setting to use the language studied in the textbooks. The textbook itself also covers reading, writing and listening practice, much of which will be set as homework to allow the focus to remain upon communication exercises in class.

教育方法等							
概要	This course aims to improve the ability for students to engage in natural English Conversation. The course uses a 4-skill approach (Listening, Reading, Writing and Speaking) and focuses upon a range of common situations and provides the language necessary to navigate such situations, whilst using role-playing, activities and discussions to build students confidence and allow ample practice. Interactions will be varied (pair work, group work and class discussions) and will be supported by the study of new vocabulary and grammar structures in the textbook. A set of comprehension-check questions are also included in each unit.						
授業の進め方・方法	Students are assessed through classroom activities (discussions, pair and group activities, as well as presentation exercises) [50%] and tests (mid-term and final) [50%]
