<u> </u>	<u> </u>	Course	Objectives 1							
概要		Students	[Course Objectives] itudents learn technical terms in English related to Electrical and Computer Engineering, by reading texts on omputer language, so that they will be able to express their specialized knowledge in fluent English.							
授業の進め方・方法		参考書: Charles Po 【学習方法 To every should rea actively th	students' part. 参考書: Charles Petzold「Code」(Microsoft Press) 【学習方法】 To every class, students must bring the dictionary and the materials handed out in previous classes. They should read the text as closely as possible before the lesson and review afterwards as well. Learners should actively think about how they can describe the content of their NIT, Maizuru College studies in English. Current events and IT issues in the news should also be studied.							
注意点		Two tests	【定期試験の実施方法】 Two tests will be given in the regular class using lesson time, 60 minutes each. 【成績の評価方法・評価基準】 Evaluation will be based on the goals above. The learners will likely be evaluated based on a mid-term and end-of-semester test and assignment. Two tests will be worth 70%, and assignment 30%. 【教員連絡先】 大内真一郎 研究室 A棟3階(A-301) 内線電話 8906 E-mail: s.ouchi アットマーク maizuru-ct.ac.jp(アットマークは@に変えること。)
