Assigned Department Objectives						
Teaching Method						
Outline	Learning a language is more than just learning words. It also includes cultural learning aspects, such as the thoughts and values of the people who speak it. Therefore, these exercises will cover language, culture, and communication. Taking the UK and business English as an example, the goal is to improve students' English skills by understanding the differences and commonalities with Japan. The level of English to be used in this exercise is somewhat easy, so it is not intended as an advanced course.					
Style	In order to achieve the goals, students will need to self-study as follows: - Look up important words in advance and understand them in English. - Review the model dialogs learned in the class and practice using the accompanying CD until able to recite it.					
Notice	- Ensure adequate preparation time for assignments. - Reassessments will not be permitted if students are late or absent from the class and unable to work or give presentations without reasons such as absence due to suspension, etc. Students who miss 1/4 or more of classes will not be eligible for a passing grade.
